Year: 2009 Field Note:

Figures reported often indicate differences between budgeted and expended columns due to the time factor associated with submission of estimated budgeted amounts in TVIS for an application period versus what eventually occurs in agency expenses once that projected period is reflected in the annual report two years hence. This figure represents continued additional reported expenditures through state funded initiatives by contracted providers as well as county health departments. These additional expenses should be considered soft monies and not counted on at this level in subsequent years as an absolute commitment.

FIELD LEVEL NOTES

1. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: PregWomenExpended Row Name: Pregnant Women Column Name: Expended

Year: 2009 Field Note:

This increase is partially due to shifting resources within the direct services area. Additionally, available state appropriated and local funding availabilities for the 2009 grant year were redirected locally and allowed for continued program effort and a greater expenditure than was projected in the 2009 application.

2. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: PregWomenExpended Row Name: Pregnant Women Column Name: Expended

Year: 2008 Field Note:

This increase is partially due to shifting resources within the direct services area. Additionally, available state appropriated and local funding for the 2008 grant year was greater than anticipated and allowed for increased program effort and larger expenditure than was projected in the 2008 application.

3. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: Children_0_1Expended Row Name: Infants <1 year old Column Name: Expended

Year: 2009 Field Note:

This increase is partially due to shifting resources within the direct services area. Available state appropriated and local funds were prioritized to gap fill in the direct service area as other monies were redirected locally. Additionally, budgeted figures were based on known available monies at the time of application versus what eventually occurred in agency final funding availabilities and expenditures once that projected period was reflected in the annual report two years hence.

4. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: Children_0_1Expended Row Name: Infants <1 year old Column Name: Expended

Year: 2008 Field Note:

This decrease is partially due to shifting resources within the direct services area. These available state appropriated and local funds were prioritized to gap fill in the direct service area as other monies previously available dissipated.

5. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: Children_1_22Expended Row Name: Children 1 to 22 years old

Column Name: Expended

Year: 2009 Field Note:

This increase is partially due to shifting resources within the direct services area. Additionally, budgeted figures were based on known available monies at the time of application versus what eventually occurred in agency final funding availabilities and expenditures once that projected period was reflected in the annual report two years hence.

6. Section Number: Form4_I. Federal-State MCH Block Grant Partnership

Field Name: AdminExpended Row Name: Administration Column Name: Expended

Year: 2009 Field Note:

Figures reported in TVIS often indicate differences between budgeted and expended columns due to the time factor associated with submission of estimated budgeted amounts in TVIS for an application period versus what eventually occurs in agency expenses once that projected period is reflected in the annual report two years hence. This figure represents state appropriated funding and expenditure increases during the 2009 grant year that were more than anticipated and allowed for larger expenditure than was projected in the 2009 application.

FIELD LEVEL NOTES

Section Number: Form5_Main Field Name: DirectHCExpended Row Name: Direct Health Care Services

Column Name: Expended

Year: 2009 Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care fo Pregnant Women, Mothers and Infants, (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population-based and enabling services. This increase is partially due to reporting differences from initial available funding at the time of the application vs final availabilities and shifting resources within the Health Department system and available state appropriated and local funding availabilities for the 2009 grant year being redirected locally as other dollars used for gap-filling services dissipated.

Section Number: Form5_Main Field Name: DirectHCExpended Row Name: Direct Health Care Services

Column Name: Expended

Year: 2008 Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care to Pregnant Women, Mothers and Infants (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population based, and enabling services. This increase in direct services, however, is partially due to increased overall funding availability and needs to provide direct services to our clients. Additionally, local expenditures increased during the 2008 grant year.

Section Number: Form5_Main Field Name: EnablingExpended Row Name: Enabling Services Column Name: Expended

Year: 2009

All areas of MCH Block dollars, (A) Preventive and Primary Care for Pregnant Women, Mothers and Infants, (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs are committed to continue a realignment of resources towards core infrastructure, population-based and enabling services. The increase for this year is partially due to reporting differences from initial available funding at the time of the application vs final availabilities and continued increased need for enabling services to our clients and prioritization of available dollars.

Section Number: Form5_Main Field Name: EnablingExpended Row Name: Enabling Services Column Name: Expended

Year: 2008 Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care to Pregnant Women, Mothers and Infants (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population based, and enabling services. The decrease for this year, however, is partially due to continued increased need for direct services to our clients and prioritization of available additional dollars. State appropriated funding during the 2008 grant year was not such that continuing efforts to increase this area could move forward.

Section Number: Form5_Main Field Name: PopBasedExpended Row Name: Population-Based Services

Column Name: Expended

Year: 2009 Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care for Pregnant Women, Mothers and Infants, (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population-based and enabling services. This increase is partially due to reporting differences from initial available funding at the time of the application vs final availabilities and expenses and to intensified efforts to shift resources to population-based related areas.

Section Number: Form5_Main Field Name: InfrastrBuildExpended Row Name: Infrastructure Building Services

Column Name: Expended Year: 2009

Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care for Pregnant Women, Mothers and Infants, (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population-based and enabling services. This increase is partially due to reporting differences from initial available funding at the time of the application vs final availabilities and expenses and intensified efforts to shift resources to infrastructure related areas. Additionally, some local funding efforts during the 2009 grant year were prioritized to this area and allowed for larger expenditure than was projected in the 2009 application.

Section Number: Form5_Main Field Name: InfrastrBuildExpended Row Name: Infrastructure Building Services

Column Name: Expended

Year: 2008 Field Note:

All areas of MCH Block dollars, (A) Preventive and Primary Care to Pregnant Women, Mothers and Infants, (B) Preventive and Primary Care for Children and (C) Services for Children with Special Health Care Needs, are committed to continue a realignment of resources towards core infrastructure, population based, and enabling services. This increase is partially due to increased overall funding and intensified efforts to shift resources to infrastructure related areas. Additionally, some local funding efforts during the 2008 grant year were prioritized to this area and allowed for larger expenditure than was projected in the 2008 application.

FIELD LEVEL NOTES

I. Section Number: Form7_Main Field Name: PregWomen_TS Row Name: Pregnant Women Column Name: Title V Total Served

Year: 2011

Total served has been modified to reflect the total number of individuals in each group who benefit from Title V direct, enabling, population-based and infrastructure building services in the State.

The total number of pregnant women served by Title V in 2008 is estimated by counting the number of unduplicated live births excluding multiple births (=49,538), multiplied by the factor 1.55 to account for the estimated number of fetal losses and abortions (49,538 x 1.55 = 76,784). The fetal loss/abortion factor is based on 2004 pregnancy estimates from CDC's National Survey of Family Growth.

Primary sources of coverage are based on insurance coverage at delivery as reported in Oklahoma PRAMS, 2008.

2. Section Number: Form7_Main Field Name: Children_0_1_TS Row Name: Infants <1 year of age Column Name: Title V Total Served

Year: 2011 Field Note:

Source: Population estimate and primary sources of coverage derived from U.S. Census Bureau, Current Population Survey for 2009 population of infants < 1 year of age in households < 250% FPL.

FORM 10 TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT STATE PROFILE FOR FY 2011 [SEC. 506(A)(1)]

STATE: OK

1. State MCH Administration:

The Title V Program is administered by two state agencies. The Oklahoma State Department of Health (OSDH) administers programs for pregnant women, mothers, infants, children and their families through the Maternal and Child Health Service (MCH). MCH organizationally consists of the Child and Adolescent Health Division, Perinatal and Reproductive Health Division and MCH Assessment. The Oklahoma Department of Human Services (OKDHS) administers the Children with Special Health Care Needs (CSHCN) Program through the Health Related and Medical Services of the Family Support Services Division.

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:

d. CSHCN

e. Others

a. Pregnant Women b. Infants < 1 year old c. Children 1 to 22 years old

MCH provides gap filling clinical services through county health departments and contract providers. Child and adolescent health clinical services include outreach, physical examination and treatment, anticipatory guidance, social work, nutrition and health education. Family planning and maternity services include outreach, risk assessment, physical examination and treatment, social work, nutrition and health education. Dental health services are also provided to include oral examinations, clinical procedures and treatment. Through contracted providers the CSHCN Program provides clinical and enabling services to neonates, children with sickle cell disease, children with autism and children who have been placed in custody of the state. The CSHCN Program provides formula, diapers and adaptive equipment through the Supplemental Security Income (SSI) Disabled Child Program (DCP) to children who receive SSI, as well as specialized formulas to children who have no other resource for receiving formula. The CSHCN Program also provides respite care for the parents/caretakers of medically fragile children. MCH and the CSHCN Program provide support to the statewide 1-800 toll free resource and referral system.

407,000

b. Population-Based Services:

MCH provides education and training for health care providers, communities, schools, women, children and families on health topics such as nutrition and physical activity, prevention of Sudden Infant Death Syndrome (SIDS), infant safe sleep, teen pregnancy prevention, school health, injury prevention, suicide prevention and violence prevention to include bullying. MCH works with child care providers statewide on health and safety issues and provides leadership with the state early childhood systems initiative. In addition, community education and training on women and men's preventive health care to include nutrition and physical activity, preconception/interconception care, breastfeeding, maternity care, postpartum depression, tobacco use prevention and women and men's reproductive health is provided. Support is provided for monitoring birth defects through a statewide registry and providing information and education on preventive measures. MCH supports and provides technical assistance for Fetal and Infant Mortality Review (FIMR), Maternal Mortality Review and Child Death Review activities. Oral health education to include the benefits of fluoridation is provided to communities, children and families. All newborns are screened for metabolic disease and hearing loss and followed to assure appropriate intervention is received. The CSHCN Program provides education to health care providers and communities on issues impacting children with special health care needs.

c. Infrastructure Building Services:

(max 2500 characters)

MCH provides leadership in developing and setting state policy for services impacting the maternal and child health population to include children with special health care needs. The CSHCN Program provides leadership in developing and setting state policy for services impacting children with special health care needs and their families. MCH provides education, training and technical assistance to public and private health care providers statewide on current health policies and standards of practice. Collaborative relationships with other state agencies to include institutions of higher education enhance these efforts. Program specific data and population-based data from sources such as the State Systems Development Initiative (SSDI), Pregnancy Risk Assessment Monitoring System (PRAMS), The Oklahoma Toddler Survey (TOTS), Oklahoma First Grade Health Survey, Oklahoma Fifth Grade Health Survey, Youth Risk Behavior Survey (YRBS), and the Oklahoma Birth Defects Registry provides information for the planning, development, evaluation and maintenance of maternal and child health policy and procedures, program services and community planning. CSHCN services can be obtained through local OKDHS offices located in every county of the state. MCH and the CSHCN programs provide technical assistance, education, training and monitoring of Title V related activities to assure communities have resources to identify health care needs of women, infants, and children and to enhance/develop systems of care.

1. Section Number: Form11_Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2009 Field Note:

DEDECORMANCE MEASURE # 07

Source of data: CY2009 data are not yet available, hence CY2008 data are used as a placeholder. Numerator is estimate from National Immunization Survey, Q1/2008-Q4/2008, of percent of Oklahoma children aged 19-35 months who have received 4:3:1:3:3 vaccination series.

Denominator is 2008 population estimate of 2 year olds obtained from the U.S. Bureau of the Census.

95% CI: 73.6% ± 6.8%.

Annual performance objectives for 2010-2014 were revised to reflect decrease in 4:3:1:3:3 immunization coverage from 80.1% in 2007 to 73.6% in 2008. While not a statistically significant decrease, the drop may reflect a national decline in 4:3:1:3:3 immunization coverage of 2.0% (±1.5%) from 2007-2008. Despite this decrease, long term prospects for immunization coverage are positive. With the renewal of CHIP in Feb. 2009, passage of the Health Care Reform Bill, and the American Recovery and Reinvestment Act of 2009, stimulus money will be available to provide immunization coverage for low-income children. In addition, OSDH has launched Operation Buzzer-Beater to ensure vaccinations of 24 month-olds who have not received sufficient immunization shots.

2. Section Number: Form11_Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2008 Field Note:

Source of data: Numerator is estimate from National Immunization Survey, Q1/2008-Q4/2008, of percent of Oklahoma children aged 19-35 months who have received 4:3:1:3:3 vaccination series .

Denominator is 2008 population estimate of 2 year olds obtained from the U.S. Bureau of the Census.

95% CI: 73.6% ± 6.8%.

3. Section Number: Form11_Performance Measure #7

Field Name: PM07 Row Name: Column Name: Year: 2007 Field Note:

Source of data: Numerator is estimate from National Immunization Survey, Q1/2007-Q4/2007, of percent of Oklahoma children aged 19-35 months who have received 4:3:1:3:3 vaccination series .

Population data in denominator were obtained from the U.S. Bureau of the Census.

Annual Performance Objectives for 2008-2012 have been revised to reflect expected increase in % of 19-35 month olds receiving vaccinations. OSDH will be launching Operation Buzzer-Beater to ensure vaccinations of 24 month-olds who have not received sufficient immunization shots.

OK WIC does not collect 85th percentile BMI information on clients, hence 95th percentile BMI data will be used henceforth.

2. Section Number: Form11_Performance Measure #14

Field Name: PM14 Row Name: Column Name: Year: 2008 Field Note:

Source: 2008 Oklahoma WIC data. Given that SLAITS discontinued the WIC participation question following the 2003 SLAITS survey, OSDH will use data from Oklahoma WIC office effective CY2010.

OK WIC does not collect 85th percentile BMI information on clients, hence 95th percentile BMI data will be used henceforth.

3. Section Number: Form11_Performance Measure #14

Field Name: PM14 Row Name: Column Name: Year: 2007

Source: Data were obtained from the NCHS SLAITS dataset for the National Survey of Children's Health. This national survey provides state-specific estimates for the proportion of children aged 2-5 receiving WIC benefits. Numerator and denominator data are unavailable. 2007 data not available, hence 2006 numbers used as an estimate.

PERFORMANCE MEASURE # 15					
Percentage of women who smoke in the last three months of pregnar	ıcy.				
		<u>Annual</u>	Objective and Perfor	mance Data	
	2005	2006	2007	2008	2009
Annual Performance Objective	,	18.8	18.6	18.4	21
Annual Indicator	19.6	19.3	21.3	16.9	16.9
Numerator	10,027	9,953	11,101	8,797	8,797
Denominator	51,157	51,500	52,148	52,000	52,000
Data Source	;			PRAMS	PRAMS
Check this box if you cannot report the numerator because 1. There are fewer than 5 events over the last year, and 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied. (Explain data in a year note. See Guidance, Appendix IX.	! :

	2010	2011	2012	2013	2014
Annual Performance Objective	20.5	20	19.5	19	18.5
Annual Indicator Numerator					

1. Section Number: Form11_Performance Measure #15

Field Name: PM15 Row Name: Column Name: Year: 2009 Field Note:

Source: Oklahoma Pregnancy Risk Assessment Monitoring System (PRAMS).

Data for year 2009 have not been released to date, hence PRAMS survey data for 2008 have been used to provide an estimate for this measure.

Numerator and denominator consist of weighted counts.

2007 95% CI: (18.3%, 24.6%) 2008 95% CI: (14.3%, 19.9%)

While there was a statistically significant decrease in the maternal smoking rate during pregnancy reported in PRAMS, from 21.3% in 2007 to 16.9% in 2008, there has been considerable variability in this measure in 1996-2008, during which period there is no detectable negative trend in the smoking rate. Hence the current annual performance objectives will not be adjusted. With the launch of the Preparing for a Lifetime initiative in Oklahoma, plus the Tobacco Program's quitline and TV spot, modest improvements for this performance measure are expected in the future.

2. Section Number: Form11_Performance Measure #15

Field Name: PM15 Row Name: Column Name: Year: 2008 Field Note:

Source: 2008 Oklahoma Pregnancy Risk Assessment Monitoring System (PRAMS).

Numerator and denominator consist of weighted counts.

2007 95% CI: (18.3%, 24.6%) 2008 95% CI: (14.3%, 19.9%)

3. Section Number: Form11_Performance Measure #15

Field Name: PM15 Row Name: Column Name: Year: 2007 Field Note:

Source: Data for this performance measure are drawn from the Oklahoma Pregnancy Risk Assessment Monitoring System (PRAMS). Data for year 2007. Numerator and denominator consist of weighted counts.

PERFORMANCE MEASURE # 16					
The rate (per 100,000) of suicide deaths among youths aged 15 throu	gh 19.				
		Annual (Objective and Perfor	mance Data

FORM 14 LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: OK FY: 2011

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

- 1. Reduce infant mortality.
- 2. Improve access to comprehensive health services for the MCH population.
- 3. Reduce the prevalence of tobacco use among the MCH population.
- 4. Reduce the prevalence of obesity among the MCH population.
- 5. Improve preconception health for females and males of reproductive age.
- 6. Reduce unwanted, unplanned pregnancies.
- Improve infant safe sleep practices.
- 8. Reduce motor vehicle injuries among children and youth.
- 9. Improve transition services for CSHCN.
- 10. Improve the system of child care for families of CSHCN.

FORM 16 STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET STATE: OK

SP(Reporting Year) #____

PERFORMANCE MEASURE: The percent of women who have an unintended pregnancy (mistimed or unwanted) resulting in live birth.

STATUS:

GOAL To reduce the number of unintended pregnancies.

DEFINITION The percent of women having an unintended pregnancy resulting in a live birth.

The annual estimated number of mistimed and unwanted pregnancies.

Denominator:

The annual number of live births in Oklahoma.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Oklahoma PRAMS, vital records

Unintended pregnancies are at greater risk for complicated births and poor pregnancy outcomes including infant mortality, birth defects, low birth weight, child abuse and dependency on welfare. SIGNIFICANCE

SP(Reporting Year) # 3

PERFORMANCE MEASURE: The percent of adolescents grades 9-12 smoking tobacco products

STATUS: A

Goal To decrease the incidence of tobacco use and the resultant disease and death attributable to exposure to tobacco products

among adolescents.

DEFINITIONThe proportion of 9th through 12th graders smoking will be obtained data from the Oklahoma Statewide Youth Risk

Behavior Survey. The proportion of students saying they smoked at least one or more cigarettes daily for the past 30 days

will be considered smokers.

Numerator:

The number of 9th through 12th grade students who report smoking cigarettes daily times.

Denominator:

The total number of 9th through 12th grade students surveyed.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Oklahoma Statewide Youth Risk Behavior Survey (YRBS).

SIGNIFICANCE Cigarette smoking is the single most preventable cause of death in the United States. It has been estimated that one in five

deathes is caused by tobacco use. Studies have shown the vast majority of smokers start before 18 years of age.

SP(Reporting Year) #____4

PERFORMANCE MEASURE: The number of families with a child with special health care needs receiving respite care provided through the CSHCN

program

STATUS: Active

GOAL To increase the number of families with a child with special health care needs receiving respite care provided through the

CSHCN program.

DEFINITIONThe number of families with a child with special health care needs receiving respite care provided through the CSHCN

program.

Numerator:

n/a

Denominator:

n/a

Units: Yes Text: Text

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Claim payment records

SIGNIFICANCE

Respite care is the issue that is brought up at every Block Grant hearing as a need. By providing respite care you are

lowering the risk of that child being institutionalized.

SP(Reporting Year) #

The extent to which the MCH program area develops and maintains the capacity to access and link health-related data **PERFORMANCE MEASURE:**

relevant to targeted MCH populations.

STATUS:

To improve MCH data capacity by collecting, linking, and analyzing relevant health data to inform key policy and program GOAL

decisions.

DEFINITION The degree that MCH cultivates data access and implements and sustains linking activities to increase data capacity to

further analyses and guide policy and program development. Progress for this measure will be referred to Form 19 Health Systems Capacity Indicator #09A, which outlines key elements for expanding data capacity. Success is measured by direct access to and linking of targeted data streams (e.g., Medicaid data, vital statistics, WIC, newborn screening, birth defects) by ranking on a scale of 1-3, with 3 the ideal case in which the MCH Program area has the ability to avail itself of data for analysis and linking purposes. Each element will be individually scored. Single scores are summed across items to yield a total score purported to indicate the extent to which data capacity has been achieved. Higher overall scores reveal greater

levels of data capacity. Numerator:

Denominator:

N/A

Units: Yes Text: Text

HEALTHY PEOPLE 2010 OBJECTIVE

Oklahoma vital statistics; newborn screening data; direct client services database, Public Health Oklahoma Information System (PHOCIS); MCH surveillance data, PRAMS and TOTS; Medicaid claims and eligibility data **DATA SOURCES AND DATA ISSUES**

Bringing together key health-related information systems will strengthen policy and program decisions by permitting public **SIGNIFICANCE**

health professional to make informed judgments about the allocation of limited resources. Linked data will provide a more

comprehensive assessment of health care and health status among MCH populations.

SP(Reporting Year) #_____7

PERFORMANCE MEASURE: The percent of children with special health care needs who are Medicaid eligible and report receiving routine dental care.

STATUS: Active

GOAL To determine the percentage of Medicaid-eligible children with special health care needs receiving routine dental care.

DEFINITIONThe percent of Medicaid eligible children with special health care needs who report receiving routine dental care.

Numerator:

The number of CSHCN adolescents who have a paid Medicaid claim for routine dental care.

Denominator

The number of CSHCN adolescents, which includes those children classified as disabled by the CSHCN program and those

in OKDHS custody, but not classifed as disabled.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES CSHCN program data, Oklahoma Department of Human Services. Medicaid program claims data, Oklahoma Health Care

Authority.

SIGNIFICANCE Past experience in recent years has suggested insufficient access to routine dental care for children with special health care

needs. At present, only anecdotal evidence is available to substantiate this perception. Information gathered for this performance measure will provide the State with documentary evidence. Furthermore, this information will be used by the Oral Health Coalition and inform recommendations for the Oral Health Forum. This will enable the State to target

geographic areas of need.

SP(Reporting Year) #

PERFORMANCE MEASURE: The percent of adolescents grades 9-12 not using alcohol during the past 30 days.

STATUS: Active

GOAL To increase the percentage of adolescents not using alcohol during the past 30 days.

DEFINITION The percent of adolescents grades 9-12 that refrain from the current use of alcohol.

The number of adolescents grades 9-12 that report no use of alcohol in the past 30 days on the Oklahoma Youth Risk

Behavior Survey (YRBS).

Denominator:

The number of adolescents grades 9-12 that respond to the Oklahoma Youth Risk Behavior Survey (YRBS).

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

26.9 Increase the age and proportion of adolescents who remain alcohol and drug free.

DATA SOURCES AND DATA ISSUES

Oklahoma statewide Youth Risk Behavior Survey

SIGNIFICANCE

Substance abuse is a pervasive public health problem. Alcohol use and related problems are common among adolescents. substance abuse is a pervasive public health problem. Alcohol use and related problems are common among adolescents hat initiate drinking early develop alcohol dependence later in life. Long-term heavy drinking has severe health risks: high blood pressure, heart arrhythmias, stroke. Heavy drinking has been linked to certain forms of cancer. Alcohol use is associated with injuries and deaths from motor vehicle crashes, falls, and drownings. It is also associated with homicide, suicide, and child abuse.

SP(Reporting Year) # 10

PERFORMANCE MEASURE: The percent of adolescents overweight and obese (greater than or equal to 85th percentile of gender-specific body mass

index [BMI] distribution

STATUS: Act

GOAL To reduce the proportion of adolescents overweight and obese.

DEFINITION The percent of adolescents overweight and obese.

Numerator

The number of adolescents overweight and obese responding to the statewide Oklahoma Youth Risk Behavior Survey.

Denominator:

The total number of adolescents responding to the statewide Oklahoma Youth Risk Behavior Survey.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE Objective 19-3c. Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES Oklahoma school-based Youth Risk Behavior Survey

SIGNIFICANCE Overweight and obesity elevate the risk of a number of illnesses including hypertension, high cholesterol, diabetes,

cardiovascular disease, and a number of cancer types.

SP(Reporting Year) # 11

PERFORMANCE MEASURE: The percentage of full-term infants who are put to sleep on their backs.

STATUS: Active

To increase the percentage of healthy full-term infants who are put to sleep on their backs. GOAL

DEFINITION The percentage of infants born after 37+ weeks gestation who are most often put to sleep on their backs by their mothers.

Numerator:

The weighted number of infants born after 37+ weeks gestation who are most often laid to sleep on their backs by their

mothers, as reported by the Oklahoma Pregnancy Risk Assessment Monitoring System Survey.

The weighted number of mothers delivering live births after 37+ weeks gestation who responded to the statewide Oklahoma

Pregnancy Risk Assessment Monitoring System Survey.

Units: 100 Text: Percent

Objective 16-13. **HEALTHY PEOPLE 2010 OBJECTIVE**

Increase the percentage of healthy full-term infants who are put down to sleep on their backs.

DATA SOURCES AND DATA ISSUES

Oklahoma Pregnancy Risk Assessment Monitoring System Survey

Research has shown that healthy full-term infants are at significantly decreased risk of Sudden Infant Death Syndrome **SIGNIFICANCE**

when put to sleep on their backs.

FORM 19 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM STATE: OK

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Informatioin)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	2	Yes
Annual linkage of birth certificates and WIC eligibility files	2	No
Annual linkage of birth certificates and newborn screening files	1	No
REGISTRIES AND SURVEYS Hospital discharge survey for at least 90% of in-State discharges	3	No
Annual birth defects surveillance system	2	No
Survey of recent mothers at least every two years (like PRAMS)	3	Yes

*Where:

1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19 HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM STATE: OK

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other:		

*Where: 1 = No

- 2 = Yes, the State participates but the sample size is <u>not</u> large enough for valid statewide estimates for this age group. 3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

SP(New for Needs Assessment cycle 2011-2015) #_____1

PERFORMANCE MEASURE: The percentage of women who have an unintended pregnancy (mistimed or unwanted) resulting in live birth.

STATUS: Active

GOAL To reduce the number of unintended pregnancies.

DEFINITION The percent of women having an unintended pregnancy resulting in a live birth.

Numerator:

The annual estimated number of mistimed and unwanted pregnancies.

Denominator:

The annual number of live births in Oklahoma.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Oklahoma PRAMS, vital records

SIGNIFICANCE

Unintended pregnancies are at greater risk for complicated births and poor pregnancy outcomes including infant mortality,

birth defects, low birth weight, child abuse and dependency on welfare.

SP(New for Needs Assessment cycle 2011-2015) #

PERFORMANCE MEASURE: The number of families with a child with special health care needs receiving respite care provided through the CSHCN

program.

STATUS: Active

GOAL To increase the number of families with a child with special health care needs receiving respite care provided through the

CSHCN program.

DEFINITION The number of families with a child with special health care needs receiving respite care provided through the CSHCN

program.

Numerator:

Denominator:

Units: Yes Text: Text

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Claim payment records

Respite care is the issue that is brought up at every Block Grant hearing as a need. By providing respite care you are lowering the risk of that child being institutionalized. SIGNIFICANCE

3 SP(New for Needs Assessment cycle 2011-2015) # The percentage of adolescents overweight and obese (greater than or equal to 85th percentile of gender-specific body PERFORMANCE MEASURE: mass index [BMI] distribution STATUS: GOAL To reduce the proportion of adolescents overweight and obese. **DEFINITION** The percent of adolescents overweight and obese. The number of adolescents overweight and obese responding to the statewide Oklahoma Youth Risk Behavior Survey. Denominator: The total number of adolescents responding to the statewide Oklahoma Youth Risk Behavior Survey. Units: 100 Text: Percent **HEALTHY PEOPLE 2010 OBJECTIVE** Objective 19-3c. Reduce the proportion of children and adolescents who are overweight or obese.

SIGNIFICANCEOverweight and obesity elevate the risk of a number of illnesses including hypertension, high cholesterol, diabetes, cardiovascular disease, and a number of cancer types.

SP(New for Needs Assessment cycle 2011-2015) # 4 The percentage of children with special health care needs who receive child care services at licensed child care facilities PERFORMANCE MEASURE: and homes. STATUS: Active GOAL Pending. The percentage of children with special health care needs who receive child care services at licensed child care facilities **DEFINITION** and homes during specified year. Number of children with special health care needs who received child care services at licensed child care facilities and homes during specified year. Denominator: Number of children with special health care needs during specified year. Units: 100 Text: Percent **HEALTHY PEOPLE 2010 OBJECTIVE DATA SOURCES AND DATA ISSUES** Oklahoma Department of Human Services, Children with Special Health Care Needs Program.

with CSHCN.

The need for licensed child care facilities and providers was a common theme in this year's needs assessment for families

SIGNIFICANCE

SP(New for Needs Assessment cycle 2011-2015) # 5 The percentage of women receiving quality [American College of Obstetrics and Gynecology (ACOG) standards] PERFORMANCE MEASURE: preconception care. STATUS: Active GOAL Pending. The percentage of women who receive quality preconception care according to American College of Obstetrics and **DEFINITION** Gynecology (ACOG) standards during the specified year. Weighted PRAMS estimate of live births to Oklahoma residents where mother received quality preconception care according to American College of Obstetrics and Gynecology (ACOG) standards during specified year. Denominator: Weighted PRAMS estimate of live births to Oklahoma residents during specified year. Units: 100 Text: Percent **HEALTHY PEOPLE 2010 OBJECTIVE**

Oklahoma Pregnancy Risk Assessment and Monitoring System.

before and between pregnancies.

Preconception care has the potential to reduce adverse pregnancy and birth outcomes by enhancing a woman's health

DATA SOURCES AND DATA ISSUES

SIGNIFICANCE

6 SP(New for Needs Assessment cycle 2011-2015) # PERFORMANCE MEASURE: The percentage of infants who are put to sleep on their backs. STATUS: Active GOAL To increase the percentage of infants who are put to sleep on their backs. **DEFINITION** The percentage of infants who are most often put to sleep on their backs by their mothers. Numerator: The weighted number of infants who are most often laid to sleep on their backs by their mothers, as reported by the Oklahoma Pregnancy Risk Assessment Monitoring System Survey. The weighted number of mothers delivering live births who responded to the statewide Oklahoma Pregnancy Risk Assessment Monitoring System Survey. Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE Objective 16-13.

Increase the percentage of infants who are put down to sleep on their backs.

DATA SOURCES AND DATA ISSUES Oklahoma Pregnancy Risk Assessment Monitoring System Survey

SIGNIFICANCE Research has shown that infants are at significantly decreased risk of Sudden Infant Death Syndrome when put to sleep on

their backs.

SP(New for Needs Assessment cycle 2011-2015) #

The extent to which the MCH program area develops and maintains the capacity to access and link health-related data **PERFORMANCE MEASURE:**

relevant to targeted MCH populations.

STATUS:

To improve MCH data capacity by collecting, linking, and analyzing relevant health data to inform key policy and program GOAL decisions.

DEFINITION

The degree that MCH cultivates data access and implements and sustains linking activities to increase data capacity to further analyses and guide policy and program development. Progress for this measure will be referred to Form 19 Health Systems Capacity Indicator #09A, which outlines key elements for expanding data capacity. Success is measured by direct access to and linking of targeted data streams (e.g., Medicaid data, vital statistics, WIC, newborn screening, birth defects) by ranking on a scale of 1-3, with 3 the ideal case in which the MCH Program area has the ability to avail itself of data for analysis and linking purposes. Each element will be individually scored. Single scores are summed across items to yield a total score purported to indicate the extent to which data capacity has been achieved. Higher overall scores reveal greater levels of data capacity.

Numerator:

Bringing together key health-related information systems will strengthen policy and program decisions by permitting public **SIGNIFICANCE**

health professionals to make informed judgments about the allocation of limited resources. Linked data will provide a more

8 SP(New for Needs Assessment cycle 2011-2015) # The percentage of Medicaid eligible children with special health care needs who report receiving dental services other than PERFORMANCE MEASURE: for routine dental care. STATUS: X% of Medicaid eligible children with special health care needs will report receiving dental services other than for routine GOAL dental care. **DEFINITION** Pending. Numerator: Number of Medicaid eligible children with special health care needs who report receiving dental services other than for routine dental care during specified year. Denominator: Number of Medicaid eligible children with special health care needs during specified year. Units: 100 Text: Percent **HEALTHY PEOPLE 2010 OBJECTIVE DATA SOURCES AND DATA ISSUES** Oklahoma Health Care Authority. SIGNIFICANCE Specialty dental care services for CSHCN are difficult to obtain for parents; routine care is received by most CSHCN in

Oklahoma.

9 SP(New for Needs Assessment cycle 2011-2015) #

PERFORMANCE MEASURE: The percent of adolescents grades 9-12 smoking tobacco products

STATUS:

GOAL To decrease the incidence of tobacco use and the resultant disease and death attributable to exposure to tobacco products

among adolescents.

The proportion of 9th through 12th graders smoking will be obtained data from the Oklahoma Statewide Youth Risk **DEFINITION**

Behavior Survey. The proportion of students saying they smoked at least one or more cigarettes daily for the past 30 days will be considered smokers.

Numerator:

The number of 9th through 12th grade students who report smoking cigarettes daily times.

Denominator:

The total number of 9th through 12th grade students surveyed.

Units: 100 Text: Percent

HEALTHY PEOPLE 2010 OBJECTIVE

DATA SOURCES AND DATA ISSUES Oklahoma Statewide Youth Risk Behavior Survey (YRBS).

Cigarette smoking is the single most preventable cause of death in the United States. It has been estimated that one in five deathes is caused by tobacco use. Studies have shown the vast majority of smokers start before 18 years of age. **SIGNIFICANCE**
